

# Snakes and Ladders

A counting game

## What you will need...

- Numicon dice 0-5 and 5-10
- 1 counter for each player

## What to do...

- Players take turns to choose a dice, roll it, and move that number of places.
- If you land at the bottom of a ladder – climb to the space at the top.
- If you land on the head of a snake you slide down to the space at the bottom.
- The winner is the first to finish

The grid consists of 10 columns and 10 rows of cells. The cells are numbered 1 to 30, starting from the bottom-left corner (1) and moving right across each row, then up to the top row (30). Each cell contains a Numicon die face with a specific number of colored dots. The grid features three ladders and two snakes. Ladders connect the following pairs of numbers: 1 to 22, 3 to 23, and 19 to 26. Snakes connect the following pairs of numbers: 11 to 15 and 28 to 24. The snakes are colored brown and yellow.

**YOU'VE FINISHED!**

**START HERE...**

Watch out for the snakes!

With luck you'll find the ladders
