

Doing and undoing

A game about inverse

What you will need...

- Numicon Shapes (two of each Shape 1-10)
- Feely Bag
- A coloured pencil for each player

What to do...

- Players choose their score card.
- Put 2 of each Shape 1-5 in the Feely Bag, leaving the other Shapes on the table.
- Players take turns to find a pair of doubles from the Feely Bag, colour the addition sentence on their score card and find the Shape that shows the total.
- Put the three Shapes on the table to show the addition sentence and say it aloud.
- Now rearrange the Shapes to show a subtraction sentence and say it aloud. Then colour the subtraction sentence on the score card.
- Return the Shapes to the Feely Bag ready for the next player.
- The winner is the first to colour all the additions and subtractions on their sheet.
