

Round the board

An addition and subtraction game

What you will need...

- Numicon 0-5 dice
- Numicon +/- dice
- A counter for each player
- Numicon Shapes (two of each Shape 1-10 and ten extra 10-shapes)

What to do...

- Put out the Numicon Shapes.
- Players take turns to roll the 0-5 dice, move their counter that number of places and pick up the Numicon Shape for the number they have landed on.
- Now roll the +/- dice. If a + is rolled, pick up two Numicon Shapes that equal the number landed on.
- If a - is rolled, choose a number to subtract from the number landed on, say the number you are choosing and the answer aloud. Then pick up the two Numicon Shape to check.
- The winner is the first player to finish.
