

Year 1 –

This week the children have been recapping the sounds they have learnt in phonics. We have completed lots of phonic activities, and wrote some sentences on dictation.

In Maths we have been continuing to work on reading and understanding the addition and subtraction symbols.

The Year One team.

Homework

Please remember to read as normal, at least 4 times over half term as we have an exciting new reading challenge starting after half term.

Year 2 –

In Maths this week we have been showing off all of the things that we know in Maths. We are very proud of all the children as they have worked incredibly hard on their own.

This week in English, we have written two more fact files. We have used our homework facts to write about someone who inspires us and we have also written about Roald Dahl. We are looking forward to reading some of his books together soon.

In Science we have been continuing to learn about materials and we have done a fair test to find out which material would be most suitable for an umbrella.

In Computing we have practised using Google Classroom in the Computer Suite and will have another try next week so that we are confident using it. **Our log in sticker is on the inside front cover of our yellow reading diary.**

Homework

Reading is homework and the children should be reading to an adult at least 4/5 times a week, and reading diaries signed and dated. Please make sure that your child is doing this as it makes a considerable difference to their progress in reading, particularly if they talk and answer questions about what they have read.

Please check ParentMail for an email (to be received after half term) about the new reading challenge starting after half term.
